

Tatham Bench

Created from solid oak, the traditional British timber, the design for this stool is derived from the studies of ancient Greek and Roman classical cultures. Combined with the prevailing styles of English furniture of the late 18th century, the stool illustrates the transition between the Neoclassical and the Regency.

Dimensions

Height 19in (48cm) width 47in (119cm) depth 14½in (37cm)

Material

Reclaimed English oak
