

18th Century Antique

An 18th century Irish Carrara marble frame chimneypiece. This simple, attractive frame is formed of a header and jambs featuring fielded panels. The gently curved underside to the header is an unusual characteristic which adds a soft grace to the piece. The impression of a keystone in the centre of the header is created by the fielded panels on either side.

Dimensions

Height 50 $\frac{5}{8}$ in (128.5cm) width 56 $\frac{3}{4}$ in (144cm)
